### ***To whom it may concern***

I am currently employed as Project Site Construction Manager for the United States engineering company Butech Bliss of Salem. Ohio.

Butech Bliss is the supplier/manufacturer of new steel processing equipment part of a large modernization program with which Dunaferre are engaged.

Karczag Endre has been known to me for longer than one year in his working capacity as Hungarian language/ English language- Translator / Interpreter. I find his services invaluable during business and technical meetings with representatives of the Hungarian Steelworks known as Dunaferre.

I especially commend Karczag Endre for his speed and accuracy when interpreting Hungarian to English language or vice versa in meetings where discussion is of a contractual nature.

I earnestly believe Karczag Endre to be an industrious and trustworthy person and confidentiality of our dealings has always been maintained.

John F Smith
