

REFERENCE

Mr. Endre KARCZAG performs translating assignments for the Hungarian Natural History Museum (HNHM) on a regular basis, e.g. he has translated a 100-page booklet of the Museum's History and Collections published at the bicentenary of the Museum as well as the Draft Agreement the HNHM and the British Royal Natural History Museum has entered into for exhibiting the Dino-Birds Exhibition during the autumn of this year. Our proof-readers have always found Mr. Endre KARCZAG's translations very authentic and of extremely high linguistic standards.
