

## Letter of Recommendation

Endre Karczag is often commissioned by the Swedish Embassy in Budapest to carry out translation tasks from English into Hungarian. The texts are always highly technical and cover a wide range of subjects such as environmental protection, economic policy, cultural issues and biotechnology. Mr Karczag completes the assignments with a high level of accuracy and expertise. His translations are of excellent quality and comply with all standards of the Hungarian language. He spares no effort in finding out about technical terminology and to ensure the natural flow of the text. Mr Karczag always adheres to the previously established deadlines and is very easy to cooperate with.

Endre Karczag is undoubtedly an extremely competent translator and I can highly recommend his services for any translation assignment.
